Re: MB Docket No. 10-56

Chairman Genachowski:

The purpose of this letter is to express the support of my organization, La Rosa Family Services, for Comcast and its pending partnership with NBC Universal. We are very grateful for all the help we receive from Comcast and hope that you and the other commissioners will take this into consideration.

La Rosa Family Services provides victims and potential victims of domestic violence with support services in Houston, Texas. We also provide information to the community to increase awareness of the problem of domestic violence and prevent it from spreading to even more people's lives. Each year, we provide support to approximately 12,472 people facing this concern.

Comcast has helped us carry out our mission in many, many ways. Its financial support has made a huge difference in our ability to provide the right kind of resources to the victims of domestic violence.

Security is one of the things we seek to provide to our clients, and it is something that Comcast has provided for us. After many break-ins at our facility, we turned to the company for a solution. Comcast now provides us with free burglary security monitoring, which makes a huge difference in our ability to make our clients and our workers feel safe.

Comcast generously offered to produce and broadcast public service announcements for La Rosa. These announcements will be of incredible importance, because those who suffer from domestic violence need to be aware of the resources available to them.

We believe strongly that the services our organization offers are important not just to our clients, but to their families and to the larger community of Houston. Comcast has done a great deal to help us offer those services.

We strongly urge you to rule in favor of Comcast's partnership with NBC Universal.

With Warmest Regards,

Theresa M. Gutierrez
